Song of Nature Loving—Greet Nature

Original Lyrics by Huang Ciyin
Original Music by Zhang Cidian
English Interpretation by Lau Huici

Feel the warmth in the sunlight.
Feel the breeze that carries delight.
Unlock your gate and step outside.
Breathe in paradise.

In the shades of the forest,
rays of sunlight piercing through.
The swaying grass and but-
tercups,
the wisdom of nature en-
lightens my mind.

I hear the voice deep in my heart.
Confusion searching for a path to go.
The wisdom of nature sings to my soul.
Yeah...

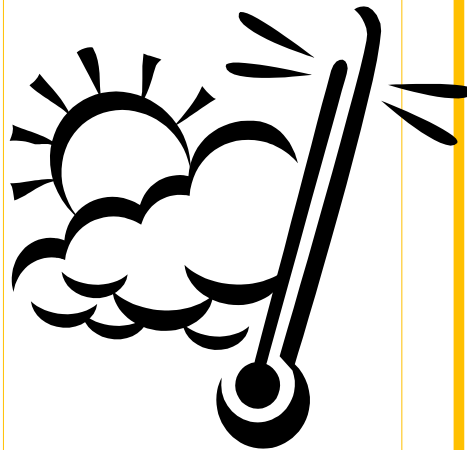

The aimless days are the lost of faith.
The songs of birds comfort the search.
I burst in joy to see the road ahead.

Unlock the gate, stroll outside.

Feel the warmth out in the sunlight.
Enjoy the comfort of, the comfort of nature.

Open your heart,
listen to the sound of love.
Let the words of nature light up your life.
Let the song of nature sing.
Let the song of nature sing.
The wisdom of paradise.
